

## IP Touch 4068

Full-featured IP touch phones from the Alcatel-Lucent 8 Series offer integrated IP connectivity and telephony.

In addition to the converged power of data and voice over IP, these terminals support an unsurpassed range of features and functions, including web-based XML business applications. They offer superior-quality audio and an optimized design with a large, high-resolution screen. The 4068 IP Touch incorporates a color display and the freedom of Bluetooth® wireless technology.

Alcatel-Lucent 8 Series IP Touch phones increase employee efficiency and productivity by targeting and supporting different user needs.
