Metropark's VCP Program gives you the freedom to enhance your business with innovative, secure communications and collaboration solutions while simplifying your back office administration with a single monthly invoice from one provider. The VCP program can cover not only the cost of advanced IP telephony, collaboration or surveillance systems, but also the cost of discontinuing a current lease or service contract.

When joining the Vendor Consolidation Program you get an extremely experienced team of experts who manage all aspects of your communication networks with a special emphasis on state of the art technology while opening up special telecom relationships which allow you to spend less than you are currently spending today. No other group can match our mixture of best of breed technology, consolidated telecom solutions, certified support, and outsourced services, delivered with a high professional methodology.
