

Redefine Your Workspace

WH63

Convertible DECT Wireless Headset

OVERVIEW

The Yealink WH63 is a great convertible DECT wireless headset from Metropark. It works seamlessly with MPVEX (Metropark Voice Exchange) and other major UC platforms and it integrates natively with Yealink IP Phones. For crystal clear sound experience, Yealink Super Wideband HD Audio Technology and Acoustic Shield Technology make you sound and hear very clearly during your phone calls and video conferencing. With a very easy fingertouch control, lightweight design, interruption free, the WH63 from Metropark is a great convertible headset for you.

FEATURES

- Connect your desk phone directly with one USB cable and the 2 Micro USB ports contained in the base allows you to connect your PC and phone simultaneously. Designed to tightly integrate with MPVEX Yealink IP Phones.
- With Yealink Acoustic Shield Technology, the two built-in Microphones block the background noise automatically, but ensures that your voice will be heard clearly and efficiently.
- A “Busylight” is enabled in the WH63. With the built-in light on the headset or BLT60 on the desk turning red, people around you will know that you are on the phone, instead of interrupting you unknowingly. Just stay focused on your conversation for higher efficiency and better collaboration.
- The WH63 supports 4 different ways of wearing it. The eartip, ear-hook, headband, and neckband. This variety will satisfy anyone’s personalized needs. It will also free you up to 360 feet away from your desk, so you can enjoy a much larger workspace and better work experience.
