Metropark Internet Air Powered By

AT&T

Metropark AT&T Internet Air requires a wireless router with a Category 18 or higher modem and use where enhanced AT&T 5G and/or 5G+ service is available.

Data throughput speeds are not capped and actual speeds vary and may be affected by a number of factors, including your proximity to a cell site, the capacity of the cell site, the number of other users connected to the same cell site, the surrounding terrain, AT&T network management practices, the applications you use, and your in-building coverage.

Plans may not be used for consumer entertainment applications, continuous video/audio streaming, web hosting, public or guest Wi-Fi.
