

The VUE-7

The MyDoorView VUE-7 from Metropark offers more than the basic functionality of a modern door intercom. There are many excellent benefits where the visitor can easily select their contact person via name. If the selected person does not answer the call, alternative subscribers such as the colleague of the same group, a mobile number, or others can be predefined to be offered by the system to be called.

-  **Interactive touch screen to select the apartment, dept, or person**
-  **Video Entry Unit controls door entry using a Smartphone App**
-  **Administration cloud portal web-browser interface**
-  **Audio noise cancelation provides clear intercom sound**
-  **Integrated IP Camera that can be viewed on App**
-  **Fast to deploy, easy to maintain**

PERFECT FOR PROPERTY MANAGERS & OWNERS

Property managers & owners are always looking to increase the safety of their residents. Metropark can help!

- Eliminates costly conventional hard line video intercom systems.
- Brand the app with your own customized name and logo.
- The Legacy APP can be retrofitted to any telephone entry unit.
- Unlimited points of entry.
