

Boomea Phone

Perfect for your mobile workforce, a small team of employees who work exclusively remote, or if you just need to receive a call at your desk and your mobile phone at the same time, the Metropark Voice Exchange Boomea Phone is the ideal productivity tool. Your MPVEX Boomea Phone can be downloaded from Google Play or the Apple App Store. You can chat, text, and use your Boomea Phone on Android and Apple smartphones & tablets which are connected to the Internet over WiFi or LTE/4G/5G.

Features

- Make outbound calls from your mobile device as if you were at your desk showing your company telephone number as the outbound caller ID.
- Receive inbound calls by extension number or business telephone number
- Direct dial or Transfer to other MPVEX extensions by dialing their extension number.
- See the real time Presence of each Metropark Voice Exchange phone user separated by group or team.
- More than a phone, you can chat with staffers over your Boomea Chat App
- Voicemail playback and management.
- Make Video Calls to your team easily whether they have Boomea Phone or just Desktop Boomea.
- Browse your internal company directly with single-click calling.
- Access Contacts from your mobile device.
- Works in tandem with your Boomea Desktop and Boomea WebPhone on your PC or Laptop.
- If you have SMS Messaging enabled, enjoy an easy way to send and receive SMS/MMS messages from your business phone number(s).
