

Metropark AI Intelligent Business Communication

Revolutionary AI Agents Built for SMBs

Powering Metropark Voice Exchange (MPVEX) and Metropark Vista (MPVISTA)

Our intelligent AI agents — REPO, PAIGE, and DIRECTOR — work seamlessly alongside Metropark Voice Exchange (MPVEX) to transform how you handle calls, voice data, and customer interactions. PAIGE additionally integrates directly with Metropark Vista (MPVISTA), your powerful ERP/CRM platform, for deeper data access and automation.

REPO

REPO – Your Voice Intelligence Assistant Works alongside MPVEX

- Automatically receives, logs, and transcribes your voice recordings
- Generates custom reports tailored to your business needs
- Turns raw calls into actionable insights

DIRECTOR – Your Smart Call Router Works alongside MPVEX

- Answers inbound calls
- Intelligently directs callers
- Creates custom on-hold experiences

DIRECTOR

PAIGE

PAIGE – Your Knowledge & Action Agent Works alongside MPVEX and MPVISTA

- Delivers instant text answers to your team's questions (and pre-approved responses for clients/vendors)
- Handles calls like Director, but with deeper intelligence: routes callers based on voice responses
- Pulls real-time account info from Vista, provides detailed database access and even takes orders from customers or internal teams
