

Surveillance Systems & AI Video Analytics

Smart Video Surveillance

Metropark's Eagle Eye cloud platform and artificial intelligence (AI) will dramatically transform your video surveillance system into an even more powerful tool. With video AI, the possibilities are limitless for keeping communities secure and engaged, helping business improve operations and customer service, and enabling manufacturers to build higher quality products in safer environments.

Metropark's Eagle Eye surveillance system with advanced video analytics reduces the cost and complexity associated with traditional video solutions. From a single platform, retailers, managers, and owners can view cameras across all locations, from anywhere. Equipped with advanced features and analytics, you can minimize loss, strengthen security and even gain valuable insight into customer and staff behavior.

-  Many Security Camera Options
-  AI Video Analytics
-  License Plate Recognition
-  Local Viewing Solutions
-  Smart Video Search
-  Vehicle Surveillance
-  2-Way Audio
