VidFleet Simplified & DSA

Where GPS Tracking Meets AI Video

Are you yearning for a solution that seamlessly integrates GPS tracking with AI video to provide real-time insights into your fleet? Look no further! VidFleet from Metropark is your answer.

All-in-One Solution

Effortlessly combine GPS Tracking with Dash cams to unlock real-time insights, all from a single device.

Simplified Installation

Say goodbye to complicated setups with our plug-and-play device. Easy peel-and-stick installation point.

Cost-Effective

Our solution eliminates the need for extra trackers, streamlining processes and saving you costs.

Simplified Installation

Say goodbye to complicated setups with our plug-and-play device. Easy peel-and-stick installation point.

Wide Applicability

Compatible with both VidFleet One and VidFleet AI+.
