

ZTrak Asset Tracking

Locate Your Assets in Seconds

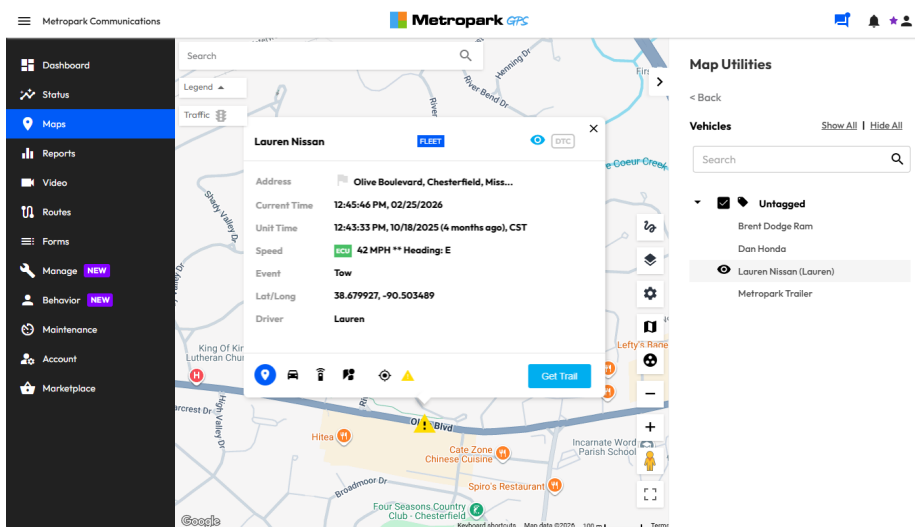

ZTrak helps you quickly and efficiently find your non-powered assets and equipment anytime, anywhere. This simple, cost-effective solution from Metropark boosts equipment utilization, maximizes your ROI, and provides peace of mind by securing your high-value items. The device is small, rugged, fully sealed, and built to withstand extreme conditions. ZTrak is perfect for tough job sites and harsh environments.

Features

- One, two, or four location pings daily
- Movement based tracking available
- Sealed & ruggedized to withstand extreme temperatures, rain, sleet and snow
- Up to 10-year replaceable battery
- Multiple forms of communication with GPS (GNSS), Wi-Fi fallback and cell tower triangulation
- Mount to your assets with screws, bolts, cable ties or industrial adhesives
- Integrated with our Tracking Cloud software

Online Reporting

Asset Path over a Given Date Range
